### Firefighters Make a Big Stride in Boundary Fire Containment

**Williams, Ariz., June 20, 2017—For Immediate Release.** Monday afternoon, forecasted isolated thunderstorms brought gusty winds and light precipitation to the Boundary Fire. Crews made a big stride today securing private property parcels and fire lines which increased containment from 18% to 30%. Cloud cover and increased relative humidity allowed fire to move along the ground, promoting healthy consumption of dead and down fuel returning nutrients to the soil.

In the morning, minimal but noticeable smoke may impact the following communities of Flagstaff, Baderville, Tuba City, Cameron, Timberline/Doney Park, and Bellemont. Smoke will disperse east of Flagstaff towards Leupp and hazy smoke will be drifting near Doney Park and Timberline as temperatures increase throughout the day. For more information on smoke and air quality, visit [www.azdeq.gov](http://www.azdeq.gov)
